Requests Granted

By Supervisor Molinari, on motion duly adopted, request Budget Analyst to conduct a management audit on the office of the Registrar of Voters and respond thereon to the Civil Service and General Administration Committee no later than January 31, 1987. [File 459-86-2, CS&GA]

By Supervisor Molinari, that a letter be sent to the City Attorney to determine if, in light of the Eller Outdoor Advertising Case, the City Attorney still subscribes to the conclusion reached in Opinion 81-59 regarding appearances of members of the Board of Supervisors before boards and commissions.

By Supervisor Silver that a letter be sent to the Budget Analyst, the Controller, the Mayor's Office of Housing and Economic Development and the Treasurer with the following questions to be answered in writing prior to the hearing by the Finance Committee on the impact of the Tax Reform Act of 1986:

1) Is the impact of the Tax Reform Act of 1986 projected to create a plus or minus in disposable income of San Francisco residents? Visitors?

2) Tax Increment Financing Bonds have been severely limited under the 1986 Tax Reform Act for private developments. How many and what value of projects presently in the planning stage are expected to rely on that mode of financing through the Redevelopment Agency, the Mayor's Office of Housing and Economic Development or other City agencies?

3) Does there continue to exist a need for the special bond issuing authority of the Redevelopment Agency given the 1986 Tax Reform Act?

4) Given that Section Eight and other federal housing subsidies are disappearing and given that tax exempt bond financing for low income residential developments has become significantly less available and attractive to investors, what plans have been made (or need to be made) to continue to house those low income tenants now in housing with expiring subsidies?

5) What efforts have been made by San Francisco to obtain a fair share allotment from the State of California for tax exempt bond authority under the State cap, given that tax exempt bonds issued for the present year for housing alone exceeded by four times the allotment for California for 1987 for all purposes?

6) Does the proposal for a waste-to-energy plant proposed for Redwood City (assuming compliance with our South African resolution by the prime sponsor) involve reliance on tax exempt bond financing and can that project be eligible under the new rules?
